Introduction To **Rap Interiors**

We established RAP Office Contracts in 1988 and have been delivering a 'hands-on' personal experience since then to all our clients, ensuring that every project runs smoothly from concept to completion through constant dialogue, collaborating with the entire team, and providing advice every step of the way.

Rap Interiors was recently formed as a result of repeated requests from clients and professionals to compliment our amazing interior design approach with furniture supply and fit-out, to offer the ultimate turnkey solution.

“We work to achieve whole life value for every client with the lowest whole life cost - for every project.”

Our clients enjoy 1-2-1 focussed attention, with a single point of contact throughout the project; taking comfort in the knowledge that their contact has behind them the experienced and committed resource of the entire Rap Team.

From our offices in Kent, Brighton, Croydon and London, we design, supply, install, and hand over, stunning interiors across the UK.

As a successful family business with over 28 years' experience, we consistently demonstrate commitment to our clients, their professional teams, every project we start and finish, and – equally as important – our commitment to the development of the people that together form the Rap Team, who we consider to be **diamonds in this industry**.

Our Process & Approach

Visionary › By embracing your aspirations and adding the benefit of our unique design experience we bring your ideas to life by turning your thoughts into tangible, build-able, designs.

Efficient › We make the decision-making process easier by producing 3D and walk-through presentations each stage to make it simpler and more cost-effective to explore all options; ruling out costly mistakes earlier.

Experienced › Our team have over 28 years experience of ensuring that the finished product we deliver makes a valuable improvement to your business.

Considerate › We minimise any impact to your business by being fully prepared and highly reactive: we can turn around your project requirements within tight deadlines.

Cost Conscious › We maximise your budget by providing a flexible and experienced bespoke design service in-house as part of our fit out delivery offering, with our buying team working alongside them to constantly value engineer the project.

Dedicated › What you want is what we do, and you can rely on the entire Rap team to be as passionate about your project as you are.

Design Services From Rap

The secret to project success is identifying the challenges and minimising their impact. The most fundamental of these is getting the design right.

We work with you from the outset to understand your requirements and expectations, and use sketches, 2D space planning and 3D imagery so that you can ensure that the design principle meets your requirements.

Add to this mood boards, fabric and colour options and samples, plus discovery visits to our London furniture showrooms and other sites, and we can give you peace of mind in the knowledge that the final visualisation will match the delivered project.

The right design ensures that expectations equal outcome.

“Our Design-focussed personal service makes us unique.”

The Design Team is led by Director Julie Anderson.

They will undertake precision surveys, listen to the requirements of the brief, and investigate the challenges of your workspace. They will work tirelessly to ensure every detail is taken into account.

We guarantee that you will be inspired by our designs.

2D & 3D Design From Rap

Refurbishing your office can be a very costly experience. Our 2D and 3D CAD service can save you money.

This means that you can look at your finished office and even suggest changes before any real-world changes have happened. This will give you peace of mind

This is reflected in the CAD drawing by showing:

- Space planning utilising new or existing furniture
- General office layout from reception through to open plan office area including boardrooms, breakout areas, print stations, conferencing facilities, Office Meeting rooms, private offices, comms room and tea points.
- Privacy relating to sound retention of the divisional walls
- Glazing benefits, single glazed, double glazed and seamless polar.

Project Benefits:

- Forward planning
- See your visual office before a completed refurbishment
- Removes elements of doubt
- Saves you money
- Eliminates mistakes of office layouts

Our Markets...

We work with all sorts of businesses from all sorts of industries. You can find out about our markets here in this brochure, but if you want to know even more you can always give us a call.

Office

Here at Rap we're experts in office refurbishment and workspace design. We apply nearly **three decades** of industry experience to every office design or fit out job we undertake and we love taking companies from **drab to fab!**

Rap has grown phenomenally over the years, but we always remember where we came from and we have a passion for office design projects both large and small. Whatever the size or scope of your project, we'll work with you on the initial concept and design, the office fit out, through to project completion. We are a **complete office design and fit out contractor** but with the added benefit of having our own internal office furniture division too.

We know that the aim of a truly bespoke office design service should be to allow you to have as little, or as much input as you like. Want to be there every step of the way? You've got it. Rather sit back and let us do all the work? No problem. We work to **your schedule, and your budget**, to give you the office design of your dreams.

When it comes to office fit outs, our results speak for themselves. We know design and we know our clients, so the office interiors we create are not only gorgeous working environments, they also perfectly embody the spirit of the business inhabiting it.

For truly exceptional results it can only be Rap Interiors.

Commercial

Rap's expert designers have a **wealth of experience** in commercial interior design, for projects both large and small, local and further afield. With nearly three decades of industry experience under our belts, we have a knack for giving commercial properties a brand new look!

However you prefer to work, we'll **tailor our service to you**. If you prefer to take a back seat and let us drive your project then we're happy to do that. However, if you want full involvement throughout the project, then rest assured that we'll keep you up to date every step of the way. We work to your schedule, and your budget, to give you the commercial interior you deserve and have always dreamt of.

Outstanding results require outstanding design and if there's one thing for which Rap are truly known, it's the ability to think outside the box! We create interior designs **beyond your wildest dreams** and we action those designs for you because we know that your time is far too precious to be spent chasing contractors. At Rap, 'commercial interiors' means exactly that: we take care of every aspect of your refurbishment, leaving you with plenty of time to get on with what you should be doing – running your business.

When it comes to your commercial fit out and commercial office refurbishment, you know **you're in safe hands**. We have a passion for projects of all sizes and types, and our experience within the commercial sector allows us to streamline the refurbishment process and get your property finished and ready for the public in the shortest possible time.

For truly exceptional results it can only be Rap Interiors.

Education

Here at Rap we have a wealth of **design, refurbishment and fit out experience** in schools, academies, colleges and universities, and we like nothing more than to undertake a school interior transformation project, to give students a learning environment that they'll love coming in to.

We'll work with your staff on every aspect of the project, supplying the interior designs and school furniture, as well as taking care of the delivery of the school fit out.

Our dedication to education design projects is reflected in our **extensive portfolio**. All manner of projects, including academy fit outs, school refurbishments and college fit out projects have been undertaken by our expert teams, and we can source ergonomic, cost effective and gorgeous looking furniture for schools as well. Worried that your project will be too 'small' for us?

Here at Rap we undertake projects of all sizes and types so if you've got the need, **we've got the solution**, from classroom furniture to breakout area design and fit out.

Within an educational environment, refurbishment projects are always time sensitive, not to mention the fact that they take your staff away from their more vital duties. We understand that, whilst the ideal scenario is to carry out work during school holidays, it's sometimes necessary to do so during term time. Either way, we're experts at giving your establishment a **brand new look**, with minimal disruption to the day to day running of the school, academy or nursery. At Rap, whether we're supplying school furniture, undertaking a full college or school refurbishment or creating a brand new breakout area for your students or staff, we take care of every aspect of the project, leaving you with plenty of time to get on with what you should be doing – teaching the next generation.

For truly exceptional results it can only be Rap Interiors.

Healthcare

At Rap Interiors we appreciate the **importance of the environment** in a healthcare establishment, whether that's a GP surgery, dentists, vets, hospital or care home. Let's face it, if your environment is fabulous, you're going to feel better!

As busy as you are, we believe that you need to be able to put in as little, or as much time as you like to your refurbishment. Regardless of the size of the project and how much you want to spend, we work to your schedule, and your budget, to **create an oasis of healing** for your patients.

Achieving amazing, **game changing results** is what we do and we understand that, whilst your healthcare facility needs to be practical, it can also look fun, fabulous and totally inspiring. At Rap Interiors, we take care of every aspect of your refurbishment, leaving you with plenty of time to get on with what you should be doing – helping people.

When it comes to the healthcare industry, our results speak for themselves. Whether we're supplying care home furniture or designing an optician's surgery, we work in harmony with **your ethos** to create the best possible outcome.

For truly exceptional results it can only be Rap Interiors.

Leisure & Retail

After nearly three decades of experience in the leisure and retail industry, the team here at Rap knows just how important it is to get your interiors looking **spot on**, and our shopfitting and retail interior design services are second to none.

Our approach is to work with you from the initial concept, through the shop fit out (or gym, or club or any other business for that matter) **right through to the finished product**. Regardless of whether you're looking at a full refurbishment or simply a few little 'tweaks', we can help. We supply the interior designs, furniture and for your project, so that you don't have to go searching, plus we handle the delivery of the refurbishment ourselves.

We don't provide a 'one-size-fits all' service: every one of our projects is **bespoke** and we're happy to let you have as much, or as little involvement in the process as you wish.

When you're a retail or leisure business, the last thing you want is down time, so we work to your deadlines and within your budget. Every leisure or entertainment project needs to be unique so our design team will inspire you with **amazing interior design** concepts and ideas and then we'll deliver the refurbishment as well.

It's our goal to create interiors that are functional, sustainable, professional and serviceable. However, we're also determined to add some of that famous Rap flair to everything we do! Ultimately, we know design and we know our clients, so every project we undertake reflects your company ethos to a tee.

For truly exceptional results it can only be Rap Interiors.

Industrial & Warehouse

Rap Interiors has been established nearly **three decades**, which means that we've seen our fair share of industrial refurbishment projects.

Although the specifics, sizes and budgets change from one company to the next, the one thing that never changes is the need for **high quality**, cost effective interior design and fit out that has as little impact on the business as possible.

To make sure your business keeps on keeping on, we work with you all the way from the initial concept, through the fit out, to the finished product, supplying the interior designs and furniture, and **taking caring of every aspect** of the project's delivery.

We work to your schedule, your budget and your style, to give you an industrial environment that looks good and works flawlessly.

It really doesn't matter whether you're after a huge refit, or a cost effective 'tweak', achieving **outstanding results** shouldn't take months of your time and you shouldn't have to spend time searching for more than one company to get there. We take care of every aspect of your refurbishment, leaving you with plenty of time to get on with what you should be doing – running your business.

Whether its warehouse interior design, warehouse space planning, industrial refurbishment, industrial office fit out or simply some much needed advice, our results speak for themselves. We know design and we know our clients, so every industrial and warehouse project we undertake is perfectly tailored to your needs.

For truly exceptional results it can only be Rap Interiors.

Our Client Testimonials

“Had the pleasure of working with Rap Interiors when we moved office in 2017. From start to finish, nothing was too much hassle. We were so please with their professionalism and creativity. We now have an office that we are proud to invite clients too.”

Questor - Maidstone

“We chose Rap because of their excellent reputation in the marketplace and having seen examples of their previous work we had a great deal of confidence that we would get something quite special.

Working with Rap was a real pleasure nothing was too much trouble and each stage of the project was clearly explained as was what the next step would be and what decisions would need to be made and by when. This was the first time CXK had undertaken a project of this size and type and we were pleased to have Rap on board.

Our new offices are universally liked by both our staff and our visitors, it has made such a difference to the working environment creating the right professional image we want our customer and partners to have, additionally the building has enabled us to attract additional revenue to support our work We have also gained new partnerships as an unintended but welcome outcome.”

CXK - Ashford

“We wanted Rap to make it look modern. But bearing in mind we are accountants it couldn't be too 'out there' and they excelled! We're really pleased with the work they have done and how dealt with everything. Nothing was too much trouble.”

Crowe Clark Whitehill - Maidstone

"I am very grateful for the creative office ideas Rap presented to me at our initial meeting. I appreciate that some ideas changed as the work progressed, but you continued to listen to all ideas, large and small, and worked hard to keep within our budget. I was particularly pleased with the layouts and how we have managed to utilise the space to its full capacity, including options for kitchens and breakout areas.

The project was managed by your friendly responsive team, anyone of whom I knew I could call upon for help at any time knowing that they would assist immediately wherever possible.

Not only does our new office reflect our brand and corporate image, the open plan design allows for improved communication, cooperation and collaboration between teams and delivers a modern safe place for us to work with excellent technical performance.

Thank you again to the team for all your hard work and professionalism."

Anderson Rowntree - Chichester

"Rap definitely lived up to our expectations. I think what attracted us to Rap was the fact that it could handle the design, construction and furniture elements of the fit out. This meant that although there were a lot of decisions that had to be funnelled through them we didn't have to work with multiple companies.

Rap being a Kent based organisation business was another attraction. We were also attracted by the fact that Rick and Julie were a husband and wife team like ourselves."

Simpsons Wine Estate - Barham

"Hudl UK could not be happier with how our new space was completed. Our project presented a unique challenge that included working with U.S. based designers, a design centered around Activity Based Working, brand specific materials and a compacted timeline. The Rap Interiors team conquered the logistics and maintained constant communication with our team throughout the project."

Hudl -London

“We were delighted with the many different creative office ideas Rap presented to us at our initial meeting with them. They continued to listen to our ideas and worked hard to keep within our budget.

The project was managed by a friendly responsive team, anyone of which I knew I could always call upon for help at any time. Not only does our new office reflect our brand and corporate image, the open plan design allows for improved communication, co-operation and collaboration between teams and delivers a modern safe place for us to work with excellent technical performance!”

TransGlobal - Sevenoaks

“Our hope was to have a building where employees did not feel tied to one particular desk. Instead, we wanted them to feel quite transient within the two parts of the building; so the café, Blendatorium and various meeting rooms. We also wanted it to be an environment that gave the impression of a good amount of space.

I would highly recommend Rap Interiors, we’re very happy with the whole thing. We got the space we wanted in the end, and it is everything we had envisaged ”

Blends for Friends - Kemsing

“Rap exceeded expectation in many ways and their proactive approach to project management ensured that costs were well controlled and that sensible, cost effective solutions were found to the numerous problems encountered with the existing structure and fabric of the building during the course of the works.

Rap’s approach, flexibility and experience all added value for Commercial Services as did their advice on Enhanced Capital Allowances for plant and equipment installed within the building. Their build team were helpful and accommodating and pleasant to work with.”

Commercial Services - Kings Hill

“From what initially was a daunting project, evolved into an enjoyable experience as we knew we were in good hands from day one. Our office move was a very special occasion in the company’s history and Rap have created an amazing space which combines a professional yet vibrant atmosphere.”

Globetec - Brighton
